

Cleverti .NET Core Assessment

Objective

1. Create a RESTful API for a *TODO-list* with the basic CRUD operations.
2. Have a JSON file serve as database.
3. Unit tests. (nice to have)

Evaluation

1. Design-Patterns
2. Code best practises.
3. Security issues.
4. Unit-tests coverage and implementation.
5. Others...

Delivery

The assessment can be sent as a ziped folder or as a link to a git repository.
